

The **Asian Heritage** is a collection of **888 NFTs** of a wide range of asian art forms, spanning many cultures and time periods of Asia. The collection includes archaic and modern jades, Neolithic pottery, imperial porcelains, Chinese snuff bottles, scholar's objects, textiles, bronzes and more. Each art unlocks private club memberships, air drops, and Tech royalties.

The Heritage envisions to be a Culture-driven and Reputable NFT brand creating a united diverse community of Asian heritage which trace their ancestry back to more than 40 different countries, each with their own unique history and life experiences, that also focuses on helping people know and remember what the Heritage stands for and also to be directly or tangibly associated with events or living traditions, with ideas, or with beliefs, with artistic and literary works of outstanding universal significance.

We are dedicated and plan to continue with the branding of our project around the NFT space and being the first to celebrate The Heritage digitally and Launch the first INDEX COIN on its own Blockchain and furthermore establish our brand to benefit our holders long term.

This is a Movement, WE ARE IN THIS TOGETHER.
